Q.1. Write a descriptive passage about a Hill Station.

Ans.: A Hill station Mathexan

Mathexan is a hill station near Mumbai and you can go there either by your own car or taxi or the minitrain that winds its way from Nexal to Mathexan. If you go by car/taxi, you have either to walk or go by cycle rickshaw to reach the town as you are not allowed to take your vehicle beyond the MTDC building.

The speciality of this hill station is the care of ecology. Barring the central part around the railway station, there are no cement concrete constructions in the area. Even the roads are not of concrete constructions in the area. They are mud roads, deliberately maintained. Vehicles are not allowed inside Mathexan and you have to walk most of the times. As a result, it is a hill station in the real sense of the term. The controlling authority, I am told, has appointed persons to keep the area clean as we people are used to litter it with papers, plastic bags and papers, unconsumed food etc. Keep Mathexan clean is a signboard that I came across, but the cleanness of the area makes you automatically aware of the need to be careful.

Q. 2 Write a descriptive passage about a LED TV

Ans: The TV in the picture is an LED TV. It is fixed on the wall about 30 inches high from the floor. It has a flat screen. It is a 52" size TV. Its sensor panel is at its bottom. When the TV is switched on, the light near the sensor gleams and within some seconds the programme is on. This LED TV is operated with the help of a remote control. When the TV is on, the name of the channel appears on the screen in the upper right corner. The screen of the TV is very thin. It is just one inch thick. The LED TV uses less power than other TVs. It has brighter display with a better contrast so the picture quality is very excellent. It also offers more colours so the picture is very natural. If the HD channel is on, we see three-dimensional view of the scene and we get the feel of seeing things taking place before our eyes. It has stereo-Phonic sound device so we can hear even the subtle notes in dialogues and sweet tunes of music. Watching the TV programmes on it becomes an enjoyable activity because we don't have any strain on our eyes. The only complaint about the LED TV is that it is very costly.
